# **Independent Auditors' Review Report**

To the Board of Directors of Celxpert Energy Corporation:

#### Foreword

We have reviewed the consolidated financial statements of Celxpert Energy Corporation and its subsidiaries ("the Group"), which comprise the consolidated balance sheets as of September 30, 2024 and 2023, the consolidated statements of comprehensive income for the periods from July 1 to September 30, 2024 and 2023 and from January 1 to September 30, 2024 and 2023, changes in equity and cash flows for the periods from January 1 to September 30, 2024 and 2023, and notes to the consolidated financial statements, including a summary of material accounting policies. It is the responsibility of the management to prepare and ensure fair presentation of consolidated financial statements in accordance with Regulations Governing the Preparation of Financial Reports by Securities Issuers, and the version of IAS 34 - "Interim Financial Reporting" approved and published by the Financial Supervisory Commission. Our responsibility as auditor is to form a conclusion based on our review.

### **Applicability**

We, the auditors, have performed the review in accordance with Standards on Review Engagements No. 2410 - "Financial Statement Review." The procedures executed in our review of consolidated financial statements include inquiry (mainly with employees responsible for financial and accounting affairs), analysis and other review-related processes. The scope of financial statement review is significantly smaller than a financial statement audit, therefore we may not be able to detect all material issues through the steps we have taken, and are therefore unable to provide an audit opinion.

#### **Conclusion**

Based on the outcome of our review, none of the material disclosures of the consolidated financial statements mentioned above exhibited any misstatement that did not conform with Regulations Governing the Preparation of Financial Reports by Securities Issuers or the version of IAS 34 - "Interim Financial Reporting" approved by the Financial Supervisory Commission, or compromised the fair view of the consolidated financial position of Celxpert Energy Corporation and subsidiaries as of September 30, 2024 and 2023, consolidated business performance for the periods from July 1 to September 30, 2024 and 2023 and from January 1 to September 30, 2024 and 2023, and cash flow for periods from January 1 to September 30, 2024 and 2023.

The engagement partners on the audit resulting in this independent auditors' report are Hsin, Yu-Ting and Wang, I-Wen.

# Notes to the Consolidated Financial Statements For the Nine Months Ended September 30, 2024 and 2023 (Expressed in thousands of New Taiwan Dollars, Unless Otherwise Specified)

### (I) Company history

Celxpert Energy Corporation (the "Company") was incorporated on November 20, 1997 and registered under the Ministry of Economic Affairs, R.O.C. The major business activities of the Company are manufacturing, processing and trading of battery packs and power supply related products for the 3C industry. Please refer to note 4(b) for related information about the primary business activities of the Company and its subsidiaries (together referred to as the "Group" and individually as "Group entities").

# (II) Approval date and procedures of the consolidated financial statements

These consolidated financial statements were authorized for issuance by the Board of Directors on November 8, 2024.

### (III) New standards, amendments and interpretations adopted

1. The impact of the International Financial Reporting Standards ("IFRSs") endorsed by the Financial Supervisory Commission, R.O.C. which have already been adopted

The Group has initially adopted the following new amendments, which do not have a significant impact on its consolidated financial statements, from January 1, 2024:

- Amendments to IAS 1 "Classification of Liabilities as Current or Non-current"
- Amendments to IAS 1 "Non-current Liabilities with Covenants"
- Amendments to IAS 7 and IFRS 7 "Supplier Finance Arrangements"
- Amendments to IFRS 16 "Lease Liability in a Sale and Leaseback"
- 2. The impact of IFRS issued by the FSC but not yet effective

The Group assesses that the adoption of the following new amendments, effective for annual period beginning on January 1, 2025, would not have a significant impact on its consolidated financial statements:

- Amendments to IAS 21 "Lack of Exchangeability"
- 3. The impact of IFRS issued by IASB but not yet endorsed by the FSC

Below is a list of standards and interpretations amended and announced by International Accounting Standards Board (IASB) that are yet to be approved by FSC but may be relevant to the Group:

# **Notes to the Consolidated Financial Statements (Continued)**

| New or revised standards                                      | Key amendments   | Effective date of IASB announcement |
|---|--|-------------------------------------|
| IFRS 18 "Presentation and Disclosure in Financial Statements" | The new standards introduced three types of income, expense, and loss as well as two income statement subtotals and one footnote on management-defined performance measure. These three amendments and enhancements provide guidelines on how financial statement information can be classified to provide users with better and more consistent information, and will affect all companies.   | January 1, 2027                     |
|   | • More structured income statement: The existing standards allow companies to present business outcomes using different formats, which makes it difficult for investors to compare financial performance across companies. The new standards introduce a more structured income statement along with a newly defined subtotal of "operating profit" and the need to classify all income, expenses, and losses into three different categories based on the company's main business activities. |                                     |
|   | • Management-defined performance measure (MPM): The new standards define the concept of MPM and require companies to explain in a financial statement footnote how each MPM provides useful information, how it is calculated, and how it can be reconciled with the amounts recognized according to IFRS/IAS.   |                                     |
|   | • More detailed classification: The new standards provide guidelines on how companies can improve the grouping of information in financial statements. These guidelines also address whether information should be included in the main statements or presented in footnotes.  |                                     |

The Group continues to evaluate how revisions of the above standards and interpretations affect its financial position and business performance. Outcomes of these assessments will be disclosed upon completion.

The Group does not expect other new and amended standards listed below, which have yet to be endorsed by the FSC, to have a significant impact on its consolidated financial statements:

- Amendments to IFRS 10 and IAS 28 "Sale or Contribution of Assets Between an Investor and Its Associate or Joint Venture"
- IFRS 17 "Insurance Contracts" and amendments to IFRS 17 "Insurance Contracts"
- IFRS 19 "Subsidiaries without Public Accountability: Disclosures"
- Amendments to IFRS 9 and IFRS 7 "Amendments to the Classification and Measurement of Financial Instruments"
- Annual Improvements to IFRS Accounting Standards

# (IV) Summary of material accounting policies

### 1. Statement of compliance

These consolidated financial statements have been prepared in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers (hereinafter referred to as "the Regulations") and the version of International Accounting Standards No. 34 - "Interim Financial Reporting" endorsed and issued into effect by the Financial Supervisory Commission, R.O.C. The consolidated financial statements do not necessarily include all the information to be disclosed in full-year consolidated financial statements that are prepared in accordance with FSC-approved IFRS, IAS, and interpretations thereof (collectively referred to as "FSC-approved IFRS/IAS" below).

Except for the matters explained below, the interim consolidated financial statements were prepared using the same material accounting policies as the 2023 consolidated financial statements. Please see note 4 of the 2023 consolidated financial statements for more details.

#### 3. Classification of current and non-current assets and liabilities

An asset is classified as current under one of the following criteria, and all other assets are classified as non-current by the Group.

- (1) It is expected to be realized, or intended to be sold or consumed, in the normal operating cycle;
- (2) It is held primarily for the purpose of trading;
- (3) It is realized within twelve months after the reporting period; or
- (4) The asset is cash or a cash equivalent (as defined in IAS 7) unless the asset is restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

A liability is classified as current under one of the following criteria, and all other liabilities are classified as non-current by the Group.

- (1) It is expected to be settled in its normal operating cycle;
- (2) It is held primarily for the purpose of trading;
- (3) It is due to be settled within twelve months after the reporting period; or
- (4) At the end of the reporting period, there is no right to defer the settlement of the liability for at least twelve months after the reporting period.

#### 4. Income taxes

The Group measures and discloses income tax expenses for the interim period according to section B12 of IAS 34 - "Interim Financial Reporting."

Income tax expense is measured by multiplying interim profit before tax with the management's best estimate of effective tax rate for the year. The entirety of the result is recognized as income tax expense for the current period.

Where income tax expense is recognized directly in equity or other comprehensive income, the amount is measured using the temporary differences between asset/liability figures presented for financial reporting purpose and asset/liability figures used for taxation basis and the tax rate applicable at the time when assets/liabilities are expected to be realized/settled.

#### 5. Employee benefits

Interim pension costs in a defined benefit plan are calculated from the beginning until the end of the interim period using the actuarial pension cost rate determined as of the reporting date of the previous year, and adjusted for major market changes, plan curtailments, settlements, and other one-time events that took place after the reporting date.

# (V) Significant accounting assumptions and judgments, and major sources of estimation uncertainty

The management is required to make certain judgments, estimates, and assumptions when preparing consolidated financial statements that comply with FSC-approved IAS 34 - "Interim Financial Reporting." These judgments, estimates, and assumptions may affect the types of accounting policies adopted and amounts of asset, liability, income, and expense reported. Actual results may differ from these estimates.

The accounting policies and major sources of uncertainty to significant judgments, estimates, and assumptions involved in the preparation of the consolidated financial statements were identical to note 5 of the 2023 consolidated financial statements.

# (VI) Explanation of significant accounts

There was no significant difference in the explanation of significant accounts between the current consolidated financial statements and the 2023 consolidated financial statements, except for the matters discussed below. Please refer to note 6 of the 2023 consolidated financial statements for more details.

### 1. Cash and cash equivalents

#### (1) Debt investments at fair value through other comprehensive income

The Group has assessed that the following securities were held within a business model whose objective was achieved by both collecting contractual cash flows and trading securities. Therefore, they have been classified as financial assets at fair value through other comprehensive income.

- A. The Group acquired 30-year USD corporate bonds of Taiwan Semiconductor Manufacturing Co., Ltd (TSMC), with a consideration of NTD32,098 thousand in January 2023. The bonds have a coupon rate of 4.5%, with interest that is payable semiannually, and will mature in April 2052.
- (2) For the credit risk and market risk, please refer to note 6(s).
- (3) The Group did not provide any financial assets at fair value through other comprehensive income as collaterals for its loans.

#### 3. Accounts receivable

|  | \$<br>1,550,846      | 1,594,760         | 2,370,589          |

The Group applies the simplified approach to provide for its expected credit losses, i.e. the use of lifetime expected loss provision for its receivables. In order to measure the expected credit losses, accounts receivable have been grouped based on shared credit risk characteristics and the days past due, as well as incorporated forward looking information, included the experience of historical credit loss and reasonable forecast of future economic conditions. The loss allowances were determined as follows:

### (3) Earnings appropriation and dividend policy

In accordance with the Company's Articles of Incorporation, if there are earnings in the annual financial statements of the Company, the Director's remuneration and employee benefits shall be provided first, and after being approved for distribution by the Board of Directors, the income taxes shall be paid, and then set aside the legal reserves at 10% of the remaining earnings. However, if the accumulated legal reserves equal to the Company's paid-in capital, this limit shall not apply. In addition, a special reserve of the same amount as the reduction in shareholders' equity items that occurred in the current year shall be allocated. When the reduction in shareholders' equity items is reversed, a portion of it may be transferred to the current year's earning distribution. If there are still earnings, along with undistributed earnings accumulated from the previous year, the Board of Directors shall prepare a proposal for profit distribution, and when issuing new shares, it shall be submitted to the shareholders' meeting for approval of distribution.

In accordance with the provisions of Paragraph 5 of Article 240 of The Company Act, the Company authorized the Board of Directors to distribute all or part of the dividends and bonuses or all or part of the legal reserves and capital surplus as stipulated in Paragraph 1 of Article 241 of The Company Act in the form of cash distribution with the presence of more than two-thirds of the directors and the resolution of more than half of the directors, and report to the shareholders' meeting.

The industry to which the Company belongs is currently in a growth stage. The dividend distribution policy should take into account factors such as the Company's current and future investment environment, capital requirements, domestic and international competition, and capital budgeting, while considering shareholders' interests, balancing dividends, and the Company's long-term financial planning. The Board of Directors shall formulate a distribution proposal each year under the law and report in a shareholders' meeting. The Company may consider factors such as financial, business, and operational performance when determining the dividend distribution. If the Company has earnings available for distribution in the current year, the general principle is to allocate an amount not less than 30% of the current year net profit after tax for dividends, and the cash dividends to be distributed are expected to account for at least 50% of total dividends for shareholders.

#### A. Earnings distribution

On March 10, 2023, the earnings distribution plan on cash dividends for the year ended 2022 was resolved in a Board of Directors' meeting. On June 15, 2023, the distribution of other earnings for the year ended 2022 was resolved in a shareholders' meeting. The relevant earnings distributions to shareholders were as follows:

|   | 2022                     |     |         |
|---|--------------------------|-----|---------|

| Cash  | \$                       | 1.5 | 120,459 |

On March 15, 2024, no cash dividends were planned to be distributed due to a net loss after tax for the year ended 2023 was resolved in a Board of Directors' meeting. On June 13, 2024, the distribution of other earnings for the year ended 2023 was resolved in a shareholders' meeting.

Related information on owners' dividends resolved in shareholders' meeting can be accessed through the Market Observation Post System website.

### 14. Share-based payments

(1) The Company's cash capital increase through share-based payments.

A. On March 10, 2023, the Company issued new shares through the resolution of the Board of Directors to increase capital in cash, while reserving 15% of the new shares, amounting to 1,200 thousand shares, to be preemptively subscribed by the employees, and the actual number of shares subscribed by the employees was 1,112 thousand shares.

|                          | <b>September 30, 2023</b>                                 |

For the details of accounts receivable and loss allowance, please refer to note 6(c).

NTD8,371 thousand and NTD7,676 thousand of the opening balance of contract liabilities as of January 1, 2024 and 2023, were recognized as income for the periods from January 1 to September 30, 2024 and 2023, respectively.

Changes in contract asset and contract liability were mainly attributed to differences between the timing at which the Company is deemed to have fulfilled its obligations by delivering merchandise or service to customers and the timing at which payment is collected from customers.

### 17. Remuneration of employees and directors

In accordance with the articles of the Company, if the Company is making profit for the year, the Company should appropriate 3%~12% as remuneration to employees and remuneration to directors not exceeding 3%. However, if the Company has accumulated deficits, the profits shall first be offset against any deficit. The aforementioned employee remuneration may be distributed in shares or in cash to employees of subsidiaries who meet specific conditions; the method of distribution is determined by the Board of Directors.

The Company incurred losses before tax for the periods from January 1 to September 30, 2024 and 2023, and no employee or director remuneration was allocated.

The Company incurred losses before tax in 2023, and no employee or director remuneration was allocated. The Company allocated NTD32,908 thousand of employee remuneration and NTD7,372 thousand of director remuneration for 2022, and the actual amount paid on a later date was indifferent from the amount allocated. More information can be found on the Market Information Post System.

#### 19. Financial instruments

There was no significant change in the fair value of the Group's financial instruments or credit risk, liquidity risk, and market risk exposures arising from use of financial instruments, except for the matters discussed below. Please refer to note 6(t) of the 2023 consolidated financial statements for more information.

#### (1) Credit risk

For credit risk exposure of accounts receivables, please refer to note 6(c).

Financial assets measured at amortized cost include other receivables and time deposits; investments in debt instruments measured at fair value through other comprehensive income include debt securities issued by listed companies. The financial assets mentioned above are deemed to be of low risk, therefore allowances are made based on 12-month expected credit loss.

As the counter parties and the performing parties of the Group's bank deposits and fixed income investments are banks with good credits or financial institutions with investment grade and above, these are considered to have low credit risk.

Changes in loss allowance for the periods from January 1 to September 30, 2024 and 2023, were as follows:

### B. Sensitivity analysis

The Group's exposure to foreign currency risk arises from the translation of the foreign currency exchange gains and losses on cash and cash equivalents, accounts receivable, other receivables, financial assets at fair value through other comprehensive income, short-term borrowings, accounts payable, and other payables that are denominated in foreign currencies. If foreign currency weakened/strengthened against NTD and CNY by 5% as of September 30, 2024 and 2023, while all other factors remained unchanged, the impact on losses before tax for the periods from January 1 to September 30, 2024 and 2023, would be as follows. Figures for the two periods are analyzed using the same basis.

|                       | January to September, 2024                 | January to September,<br>2023              |  |

### C. Foreign exchange gains and losses on monetary items

The exchange gain (loss) on monetary items of the Group (including realized and unrealized) is translated into the amount in the functional currency and the exchange rate information for translating to the functional currency of the parent company, NTD (i.e. the currency expressed in the consolidated financial statements), is as follows:

### (4) Interest rate analysis

Please refer to the notes on liquidity risk management for the interest rate exposure of the Group's financial assets and liabilities.

The following sensitivity analysis is based on the exposure to the interest risk on the non-derivative financial instruments at the reporting date. Regarding the assets and liabilities with variable interest rates, the analysis is based on the assumption that the amount of assets and liabilities outstanding at the reporting date was outstanding throughout the year. The rate of change is expressed as the interest rate increases or decreases by 0.25% when reporting to management internally, which also represents the Group management's assessment for the reasonably possible interest rate change.

If interest rate increased/decreased by 0.25% while all other variables remained unchanged, the Group's net losses before tax for the period from January 1 to September 30, 2024 and 2023 would have decreased/increased by NTD1,093 thousand and NTD714 thousand, respectively. This is primarily due to the Group's demand deposits and bank borrowings with variable interest rates.

#### (5) Fair Value

#### A. Types and fair value of financial instruments

The Group's financial assets and liabilities at fair value through profit or loss, and financial assets at fair value through other comprehensive income are measured on a recurring basis. The carrying amount and fair value of the Group's financial assets and liabilities, including the information on fair value hierarchy were as follows; however, except as described in the following paragraphs, for financial instruments not measured at fair value whose carrying amount is reasonably close to the fair value, and lease liabilities, the disclosure of fair value information is not required:

#### B. Valuation technique for financial instruments measured at fair value

#### a. Non-derivative financial instruments

Financial instruments that are openly quoted in an active market will have fair value determined at the openly quoted price. Fair values of public-listed (OTC-traded) equity instruments and debt instruments openly quoted in active markets are determined using market prices quoted on major exchange and OTC center for actively traded government bonds.

## **CELXPERT ENERGY CORPORATION AND SUBSIDIARIES**

### **Notes to the Consolidated Financial Statements (Continued)**

Except for financial instruments traded in active markets, as described above, fair values of all other financial instruments are obtained either by applying valuation techniques or by making reference to counterparties' quotations. Fair value through valuation technique may be obtained by making reference to the prevailing fair value of financial instruments that share similar terms and characteristics or using valuation techniques such as the discounted cash flow method in conjunction with market information available as at the reporting date.

- b. Derivative financial instruments are evaluated based on valuation models that are widely accepted by market users, such as the binomial options pricing model.
- C. There was no transfer of fair value hierarchy for the periods from January 1 to September 30, 2024 and 2023.
- D. Reconciliation of Level 3 fair values

The aforementioned total gains or losses were presented as "Losses on financial assets at fair value through profit or loss." Details of the assets that the Group had held as of September 30, 2024 and 2023 were as follows:

E. Quantitative information on significant unobservable inputs (Level 3) used in fair value measurement

The Group's financial instruments that use Level 3 inputs to measure fair value include "Financial assets at fair value through profit or loss - call option of convertible bonds."

Most of the fair value measurements of the Group categorized within Level 3 used single significant unobservable input.

Quantified information of significant unobservable inputs was as follows:

| Content   | Valuation<br>technique                                | Significant<br>unobservable inputs   | Inter-relationship between significant unobservable inputs and fair value measurement |

| Financial assets<br>at fair value<br>through profit<br>or loss - call<br>options of<br>convertible<br>bonds | Binomial<br>convertible<br>bonds<br>pricing<br>models | Volatility (As of September 30, 2024, December 31, 2023, and September 30, 2023, the respective percentages were 20.45%, 22.2%, and 20.9%, respectively) | • The higher the volatility is, the higher the fair value will be.                    |

F. Level 3 Sensitivity of reasonable, possible alternative assumptions on fair value, for items that are subject to Level 3 fair value input

The Group considers its fair value assessment of financial instruments to be reasonable, but uses of different valuation model or parameter may lead to different results. For financial instruments that involve the use of Level 3 input, impacts on current profit level 3 or loss in the event of a change in valuation parameter are explained below:

|   | Input      | Move up<br>or down | Impacts of fair value change on current profit or loss |         |             |  |  |
|---|------------|--------------------|--|---------|-------------|--|--|

| December 31, 2023   |            |                    |  |         |             |  |  |
| Financial assets at fair value<br>through profit or loss - call<br>options of convertible bonds | Volatility | 5%                 | \$   | 480     | (760)       |  |  |
| <b>September 30, 2023</b>   |            |                    |  |         |             |  |  |
| Financial assets at fair value<br>through profit or loss - call<br>options of convertible bonds | Volatility | 5%                 | \$   | (1,720) | (3,520)     |  |  |

The favorable and unfavorable effects represent changes in fair value, and fair value is based on a variety of unobservable inputs calculated using a valuation technique. The analysis above only reflects the effects of changes in a single input, and it does not include the interrelationships with another input.

#### 20. Financial risk management

There was no significant change in the Group's financial risk management goals and policies from those disclosed in Note 6(u) of the 2023 consolidated financial statements.

#### 21. Capital management

The Group's capital management goals, policies, and procedures were consistent with those disclosed in the 2023 consolidated financial statements. There was no change in the quantitative data used for capital management from that disclosed in the 2023 consolidated financial statements. Please see note 6(v) of the 2023 consolidated financial statements for more information.

#### 22. Non-cash investing and financing activities

- (1) The Group's investing activities which did not affect the current cash flow for the periods from January 1 to September 30, 2024 and 2023, were acquisition of right-of-use assets through lease. Please refer to note 6(f) and note 6(j).
- (2) Reconciliation of liabilities arising from financing activities was as follows:
